

HOW TO BUILD:

# A Paper Scarecrow

BY HATTIE NEWMAN

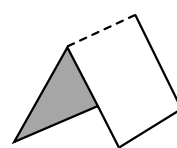

## A Paper Scarecrow

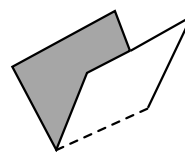

**Level: Easy**

**Duration: 1 hour**

### KEY

*Mountain fold*

*Valley fold*

Cut lines —————

Mountain Fold - - - - -

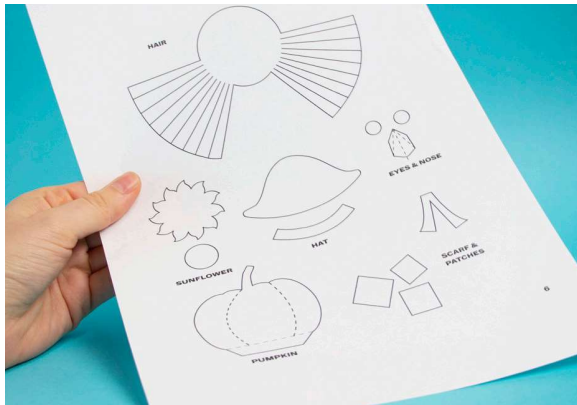

Valley Fold . . . . .

**You will need:**

**Scissors, glue, coloured paper (around 150gsm), sticky tape, bone folder (or ballpoint pen without the ink) & pens/pencils.**

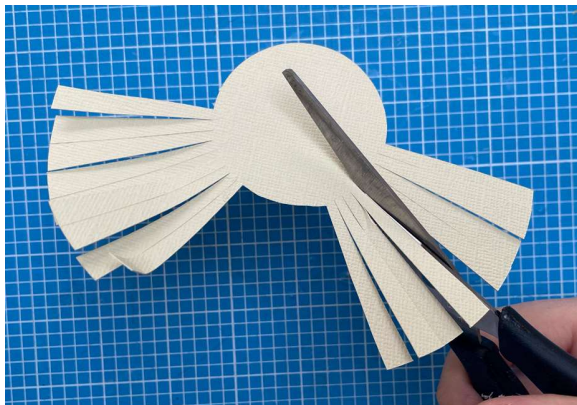

1. Print the templates onto A4 coloured paper (around 150gsm). Alternatively print onto white printer paper and then trace onto coloured paper.

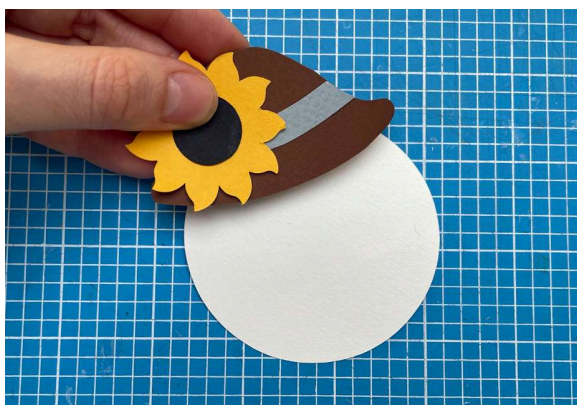

2. Cut out all the parts with scissors.

3. Cut out the hair, cutting along each line.

4. Scrunch the hair into a ball in your hand and then unravel it, so it looks like straw.

5. Stick together the hat and sunflower and glue to the top of the circle head.

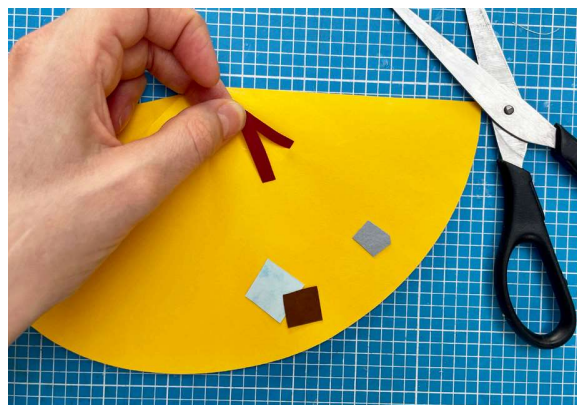

6. Add detail to the face on the circle head. You can use the templates I created as a guide, or design your own with paper, pens or pencils.

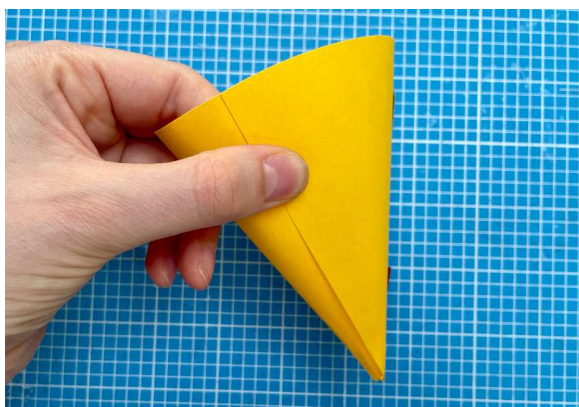

7. Apply glue to the centre of the hair and attach to the back of the circle head.

8. Add detail to the body – you can do this when it's flat or 3D.

9. Assemble the body, the shape of a cone. Apply glue to the area shaded in grey and use sticky tape at the back join to hold in place.

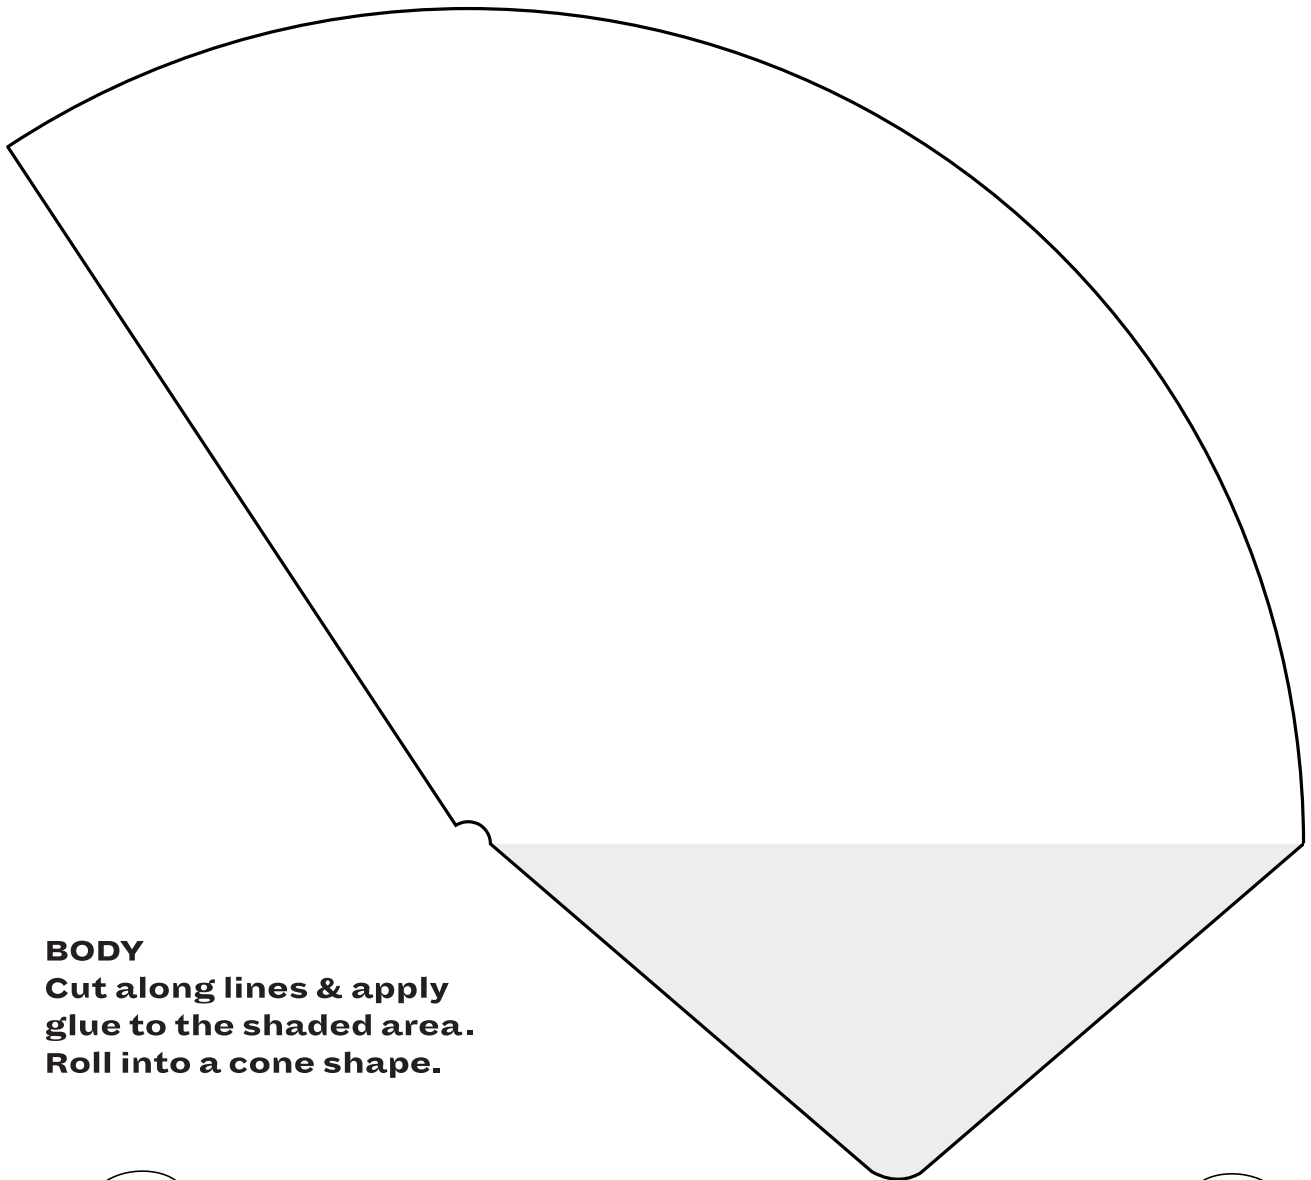

10. Squeeze the top of the cone to make a flat area to attach the head to. Apply glue and attach head. Again, use tape for extra strength.

11. Fold the arms like a concertina and attach to the back of the body. Use tape to hold in place.

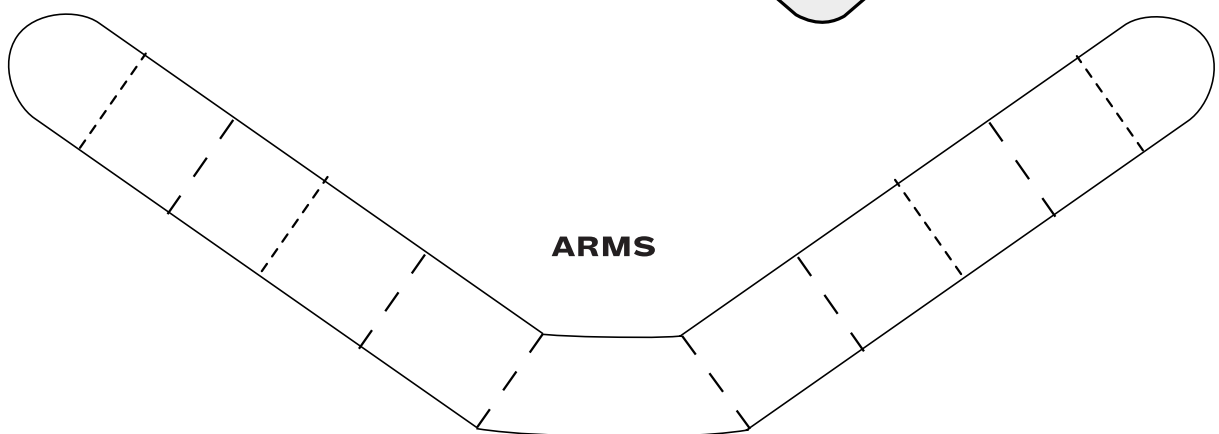

12. You can make more in different colours and designs and add props like a pumpkin! Happy Thanksgiving!

# **BODY**

**Cut along lines & apply glue to the shaded area. Roll into a cone shape.**

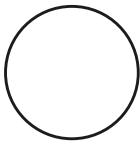

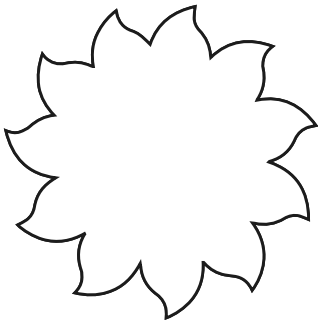

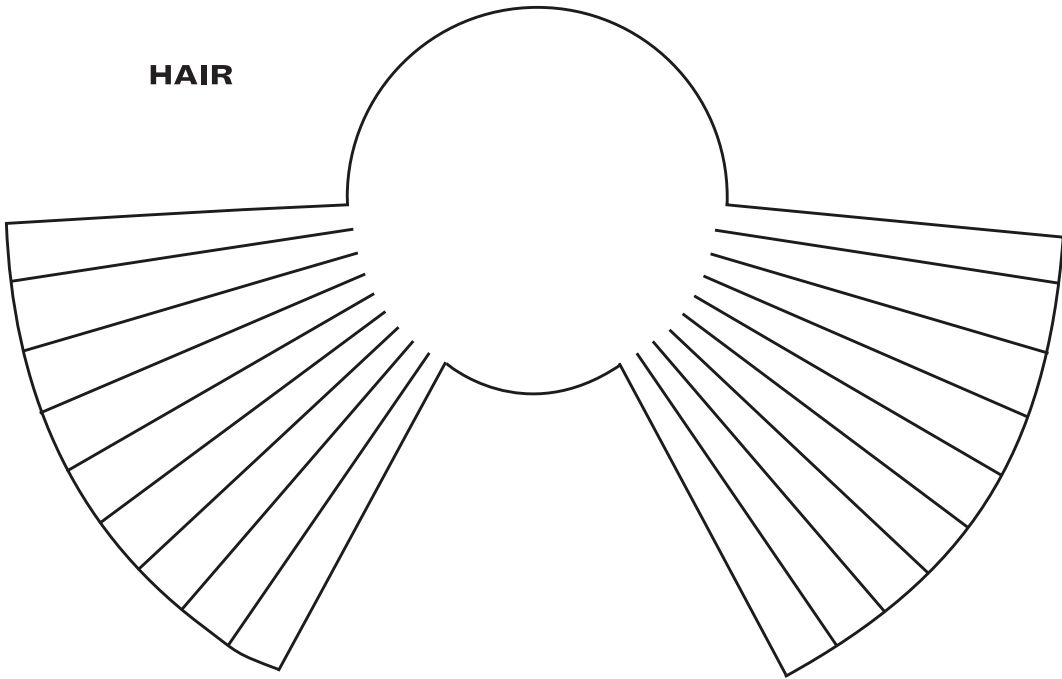

# **ARMS**

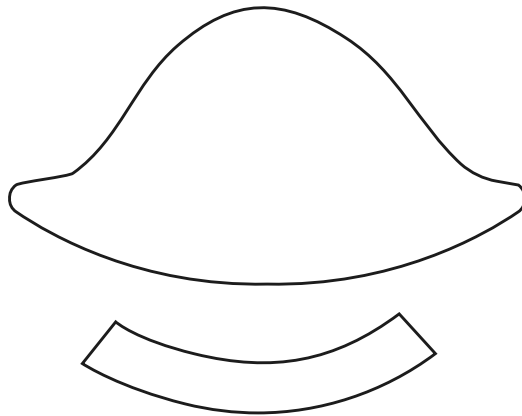

**This way up**

<b>Cut lines</b>	
<b>Mountain Fold</b>	
<b>Valley Fold</b>	

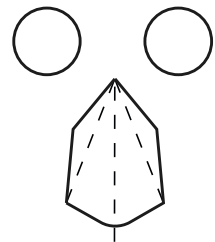

**HAIR**

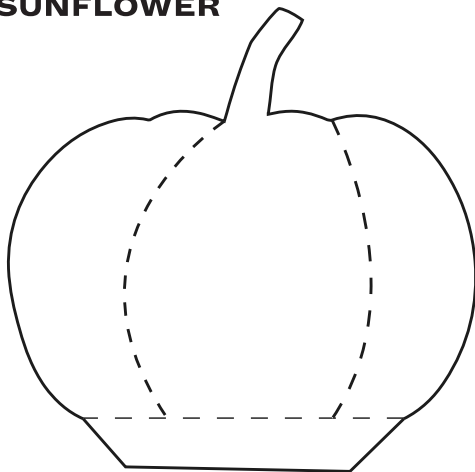

**SUNFLOWER**

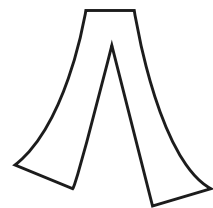

**HAT**

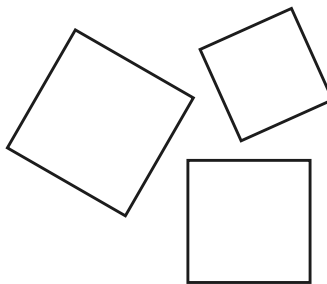

**EYES & NOSE**

**PUMPKIN**

**SCARF & PATCHES**

Here's an option for printing the shapes onto white paper (colour comes from your printer).

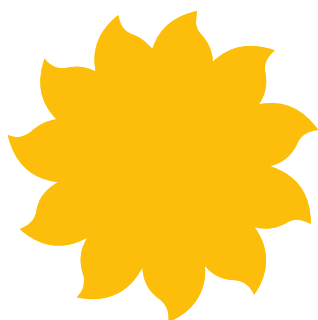

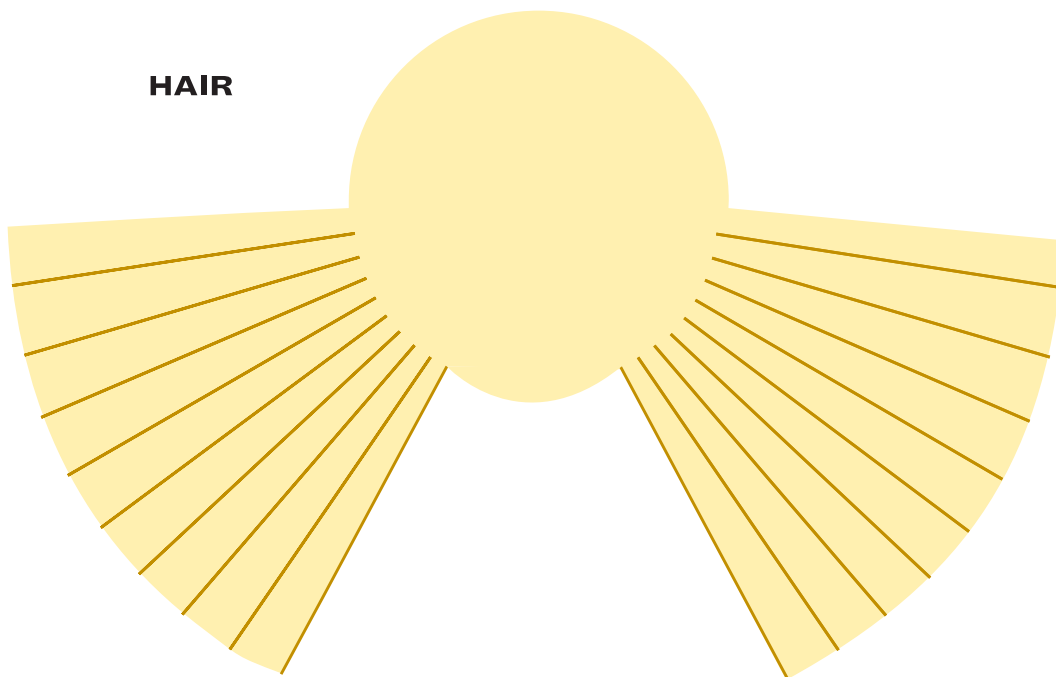

**BODY**  
Cut along lines & apply  
glue to the shaded area.  
Roll into a cone shape.
