

# Proud Paper Tiger

Difficulty level: Medium

Cutting line ———

Folding line .....

## Steps

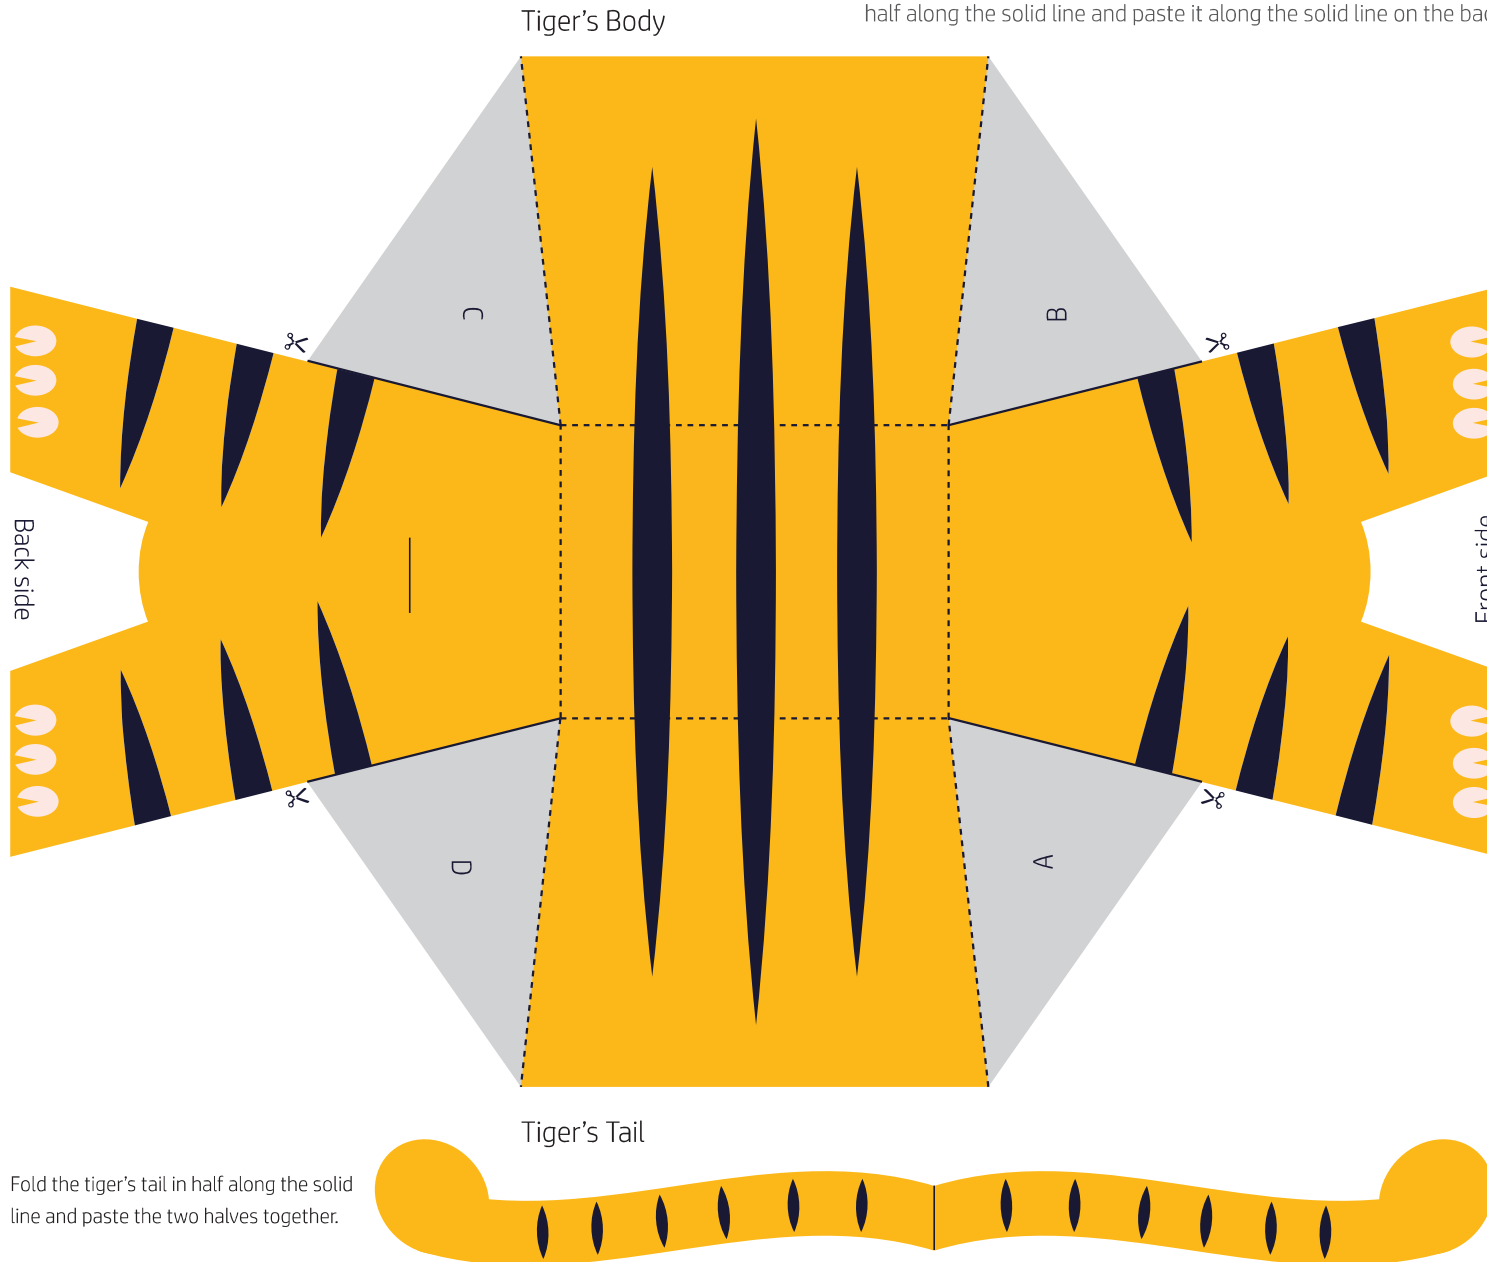

Step 1: Cut out the face, body, and tail of the tiger.

Step 2: Cut along the solid lines of A, B, C, and D as indicated by the scissors.

Step 3: Fold the tiger body along the dotted lines.

Step 4: Place A and B behind the front side, and then paste A and B on the front side of the tiger body. Paste C and D on the back side of the tiger's body.

Step 5: As indicated by the picture, paste the tiger's face on the front side of the tiger's body, then fold the tiger's tail in half along the solid line and paste it along the solid line on the back side.

Fold the tiger's tail in half along the solid line and paste the two halves together.
